Callouts

- 1 Main branding for TopStone - This will also be the site's escape hatch back to the home page
- 1.1 Tag line with a gradient underlay
- 2 Phone Fax and email contact info
- 3 Contact Form
- 4 All input fields will have sample text
They will also be larger fonts as this site will draw from an older demographic

5 Footer with copyright

6 Main site navigation - Each button will have 3 states inactive, active, and a hover state.

7 Footer navigation linking to all sub-pages

8 When user clicks on this - form is submitted

9 When user clicks this button all data in form is reset to default examples

The wireframe shows a mobile form for TopStone Inc. The header includes the company logo and a slogan: "Create Your Statement Piece With TopStone". Below the header are two buttons: "Contact Us" and "Inventory". The main form area contains three fields: "First Name" (with value "John"), "email Address" (with value "john1957@yahoo.com"), and "Message" (with placeholder text "Your message here. 150 characters max."). At the bottom are two buttons: "Submit" and "Reset". A callout box on the right side provides three numbered instructions: 1) Tob branding and main navigation; Both the «Contact Us» and «Inventory» will take user to that page. 2) All three form fields will be shaded with sample text in the inactive state. When the user touches a field, that field turns white (active state) and the sample text is removed. 3) Submit button will submit form to TopStone's email when clicked. Reset button will reset all fields to inactive state w/sample text.

Submit **Reset**

1 Tob branding and main navigation
Both the «Contact Us» and «Inventory» will take user to that page.

2 All three form fields will be shaded with sample text in the inactive state. When the user touches a field, that field turns white (active state) and the sample text is removed.

3 Submit button will submit form to TopStone's email when clicked. Reset button will reset all fields to inactive state w/sample text.

As a general note:
Due to nature and demographic of this sites targeted audience (40-60 year old); we will keep the mobile version streamlined, and uncluttered. The active buttons will be spaced farther apart than normally for ease of use.
